

Airport Curfew Fund Program

BACKGROUND:

In October 2003, Mineta San José International Airport (SJC), with the approval of the Federal Aviation Administration (FAA), revised the curfew portion of its noise control program from a weight-based curfew to a noise-based curfew. The revised noise control program also included enforcement provisions where operators are fined \$2,500 for every curfew intrusion. To date, the Airport Curfew Fund has collected \$202,500. As a part of SJC's Good Neighbor Policy, the Airport is inviting the local community to submit their recommendations for the use of these funds.

CRITERIA:

The following criteria should be included within all proposed recommendations. The Airport Curfew Fund Program(s) should:

- Offer some benefit to the community
- Be related to operations at the Airport
- Enhance the interaction of the Airport with the community
- Enhance the relationship between neighbors and the Airport

(Under Federal Law, the Airport Curfew Fund may be used *only* for expenditures that are directly and substantially related to the operations of the Airport.)

Ultimately, the Airport Curfew Fund Program(s) should benefit the surrounding communities, enhance Airport/community relations, and support responsiveness on Airport issues of community interest.

SUBMISSIONS:

Suggestions on how to use the Airport Curfew Funds may be submitted on this official form only. No attachments will be accepted. Submissions must meet the above criteria. Forms can be submitted by:
